### EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In the specification:

Page 1, line 7, replace "pending" with --abandoned--.

### REASONS FOR ALLOWANCE

2. Claims 1-9 and 11-13 are allowed. The following is a statement of reasons for the indication of allowable subject matter. The present invention relates to a laser light source and an optical system for shaping light from a laser-bar-stack. Regarding claim 1, the prior art alone or in combination fails to disclose the novel configuration of the shaping optical system comprising a refracting optical system, a first and second laser beam group wherein the second laser beam group being relatively shifted together with respect to the first laser beam group, and a transmission/reflecting optical system, which transmits and reflects the first and second laser beam groups so that the shifted laser beam groups align along the direction of layering. Regarding claim 11, the prior art alone or in combination fails to disclose an optical member comprises a glass plate having parallel surfaces, one of the surfaces having stripe reflection films thereon, and the other surface having a partial reflection film thereon so that the second laser beam group travels along the layering direction relative to the first laser beam group, thereby

Art Unit: 2873

first and second laser beam groups are emitted from the remaining region of the other surface.

Regarding claims 12 and 13, the prior art fails to satisfy the cited expressions. The claimed invention is therefore considered to be in condition for allowance as being novel and non-obvious over prior art.

3. The prior art taken either singly or in combination fails to anticipate or fairly suggest the limitations of the independent claims, in such a manner that a rejection under 35 USC 102 or 103 would be improper. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
